

Beck Piscopo

Data Product Engineer

I've spent the last two years traveling by sailboat while raising my son—an experience that deepened my ability to navigate uncertainty, taught me to stay calm under pressure, and strengthened my mental discipline. Now that I've returned to land, I am eager to re-engage in building data products that make a tangible difference for the people who use them. I'm drawn to innovative teams that value meticulousness, curiosity, and iterative improvement. Highly analytical and self-directed, I'm motivated to solve problems that matter. My expertise lies in bridging the gap between complex technical systems and the people who rely on them.

Work Experience

Data Analyst | BI Engineer

First Orion, 2019-2023

- Routinely analyzed billions of call records to research fraud patterns, detect anomalies, and troubleshoot a robust solution within the T-Mobile network
- Acted as technical account manager for a solution that generated \$4M+ in annual revenue, served as the subject matter expert among engineers, analysts, and executives
- Led the development of a custom sentiment analysis algorithm that outperformed the existing vendor solution by 30%
- Designed and implemented a fully automated KPI/SLA reporting pipeline for the CNAM (Caller ID Name) platform using Python, SQL, and Spark
- Led monthly stakeholder meetings for both First Orion and T-Mobile
- Socialized and generated stakeholder buy-in for an internal BI platform to increase data access and reduce time-to-insight for analysts, sales engineers, and customer support teams

Jr. Developer | Assoc. Project Manager

Team SI, 2019-2019

- Gathered requirements from clients on website needs
- Assisted with project management tasks
- Contributed to the development of client websites
- Assisted a Senior developer in building an integration between Azure DevOps and Google Hangouts Chat using JavaScript, an Azure Function, and ngrok

Tech & Brand Strategist

The Green Corner Store, 2016-2018

- Assisted in cultivating a brand identity, strategy, and vision
- Maintained a weekly newsletter
- Managed all social media accounts
- Analyzed sales data, set KPIs, measured progress
- Wrote the employee handbook and business proposals
- Managed a small team of employees
